*Re: AANR's heartfelt congratulations...*

Dear Brian and the Nudist Clubhouse:

As Executive Director for the American Association for Nude Recreation I am delighted to be among the first to congratulate Nudist Clubhouse on its inaugural event.

We have very much enjoyed working with Brian and Naturally California over many years and have some regrets to see it sunset. However, Nudist Clubhouse represents an entirely new approach to bringing those who enjoy nude recreation together and we appreciate preparing to charter this exciting organization.

It seems that you cannot pick up a magazine or turn on a television news program without seeing something about “Web 2.0” --- essentially, design the right software, make it easy for people visiting your website to use, and their contributions help make the site worth visiting for someone else. And while there has been explosive growth of sites like Myspace, Facebook, YouTube, and Flickr the nudist and naturist community didn’t have anything that quite tapped into this phenomenon --- Until Nudist Clubhouse that is!

I have personally “clicked around” the site with Brian as my host and am awed by the many ways people can communicate. Please accept my very best wishes for the continued success of Nudist Clubhouse.

Please also let me encourage you to make the AANR badge the first that you add to your collection!

Sun-cerely,

**Erich E. Schuttauf**

Erich E. Schuttauf, Esq.  
AANR Executive Director
